In the claims:

Please amend the pending claims as follows: E

1. (amended) A method to induce an antitumor  
immune response in a potential or actual prostate tumor-  
bearing subject which method comprises administering to said  
subject a composition comprising an [active] ingredient  
which is active to induce said immune response and is  
selected from the group consisting of

at least one antigen overrepresented in the  
prostate gland or an immunologically effective portion  
thereof;

an expression system capable of generating *in situ*  
said antigen; and

an antiidiotypic antibody or [fragment] an  
immunologically effective portion thereof which mimics said  
antigen.

2. (amended) The method of claim 1 wherein said  
antigen [in] is a protein or peptide.
